Description: Filter masks in double layer fabric, with Ultra-Fresh bacteriostatic treatment (<https://ultra-fresh.com/ultra-fresh-antimicrobial-additives>) and additional water repellent treatment to stop the droplet from leaking. The product has a large pocket to allow the insertion of additional layers of fabric or other materials (such as TNT or other fabric) to increase the protective and filtering effect. It is not a medical device, it has no FFP1 / FFP2 / FFP3 filtering action and it is not a PPE (Personal Protective Equipment). 100% Made in Italy product.

Properties: absorbing personal fumes, humidity, saliva and aerosols. Stop the droplet from leaking. The product is washable and reusable. The effect of the bacteriostatic and water repellent treatments persists up to 5/6 washes.

Customization: Ability to customize the mask in WHITE color with different colors other than Red and Green of the two rings that connect to the ears. Possibility also to insert a logo or image woven with colored threads. Minimum quantity for customized masks is 5.000 pieces. To have the customized printed insert (not Relaxsan) the minimum quantity is 5.000 inserts.

Size: Adult model and Child model both available in one size.

Composition for Adult White Model: 95% Polyamide PA - 3% Elastane EA - 2% Polypropylene PP

Composition for Adult Colored Models: 61% Polyester PL - 37% Polyamide PA - 2% Elastane EA

Composition for Kids White Model: 86% Polyamide PA – 14% Elastane EA

Composition for Kids/Baby Colored Model: 53% Polyamide PA – 41% Polypropylene PP - 6% Elastane EA

Washing Instructions: The mask could be washed unlimited times until it is in good condition to be used. Generally, the mask can last between 20 – 30 washes.
